Action taken in case of negligence in the work of a bridge under construction in Rajkot

Two engineers suspended, notices issued to the Deputy Commissioner and City Engineer

Rajkot

The Municipal Corporation has taken major action in the matter of negligence in the work of the under-construction bridge on the new ring road of Rajkot city. Two engineers have been suspended. While the Deputy Commissioner and the City Engineer have been issued show-cause notices by the Municipal Commissioner. Deputy Engineer V. C. Kariya and Assistant Engineer Vishal Vagdia have been suspended. Apart from this, show-cause notices have also been issued to Deputy Commissioner Chetan Nandani and City Engineer Kuntesh Mehta.

Action taken on defects in bridge work

Three separate small bridges are being constructed near Kataria Chowkdi on the New Ring Road at an estimated cost of Rs 40 crore. Action has been taken on negligence in the work, defects in the bridge work and other issues. As serious negligence was exposed, Municipal Commissioner Tushar Sumera has ordered strict action. There was improper alignment, poor quality and huge delay in the work. A notice has also been issued to Backbone Construction Company.

Rajkot Municipal Commissioner Tushar Sumera visited the site of the three under-construction bridges

being constructed by the Municipal Corporation on the 150-foot Ring Road. The Commissioner conducted a very detailed and thorough review of the progress of the bridge work, quality of construction, manpower available on site, site monitoring and the timeline for completion of the project.

A clear lack of workmanship was observed during the inspection.

During the inspection of the widening work of these three bridges (BR-2, BR-3 and BR-4), a clear lack of workmanship was observed at the initial stage. Taking the poor quality of work and the defects seen on site seriously, the Municipal Commissioner ordered the Project Management Unit to conduct a technical survey of the entire work and submit a detailed report with immediate effect.

The PMU had conducted a survey of these three bridge projects. The survey report had exposed serious errors, shortcomings and technical defects during the work. The report clearly revealed that the set standards were not maintained in these works and serious negligence and laxity had been shown in the execution of the project.

Based on the survey report, the Municipal Commissioner took immediate strict

action and ordered the suspension of Deputy Executive Engineer Vijay C. Kariya and Assistant Engineer Vishal M. Vagdiya of Ward No. 9 from duty. Both the engineers were entrusted with the responsibility of supervising, monitoring and supervising the widening work of the three bridges. But the lack of workmanship, serious negligence, laxity and carelessness in their work have been clearly proven, hence the suspension order has been issued.

Apart from this, show cause notices have also been issued to Deputy Municipal Commissioner of West Zone Chetan Nandani and City Engineer Kuntesh Mehta for negligence in the supervision and administrative monitoring of the project.

'No compromise will be made in the quality of works'

Municipal Commissioner Tushar Sumera said that no compromise will be made in the quality of public projects and infrastructure works of the city prepared with public money. To ensure that each project is completed within the stipulated time frame and with proper quality, every project will be closely monitored under the direct supervision of the Municipal Commissioner in the coming time.

Ahmedabad Civic Body Plans Zone-Wise Dog Sterilisation to Control Stray Dog Population

Ahmedabad, The Ahmedabad Municipal Corporation (AMC) has started a zone-wise plan to control the growing number of stray dogs in the city. The civic body told the court that 5,470 stray dogs have been caught and sterilised since April at its main centres in Behrampura and Danilimda. During the hearing of a suo motu case on stray dog control, the Chief Justice questioned the civic body's progress. The court observed that although AMC was presenting data about sterilisation, the number of stray dogs seen on city roads still appeared to be high.

Court Suggests Zone-Wise Dog Census and Microchipping - The AMC said it has started a pilot project and a dog census is also underway. The court suggested that the civic body should first count the dogs in each zone and then carry out sterilisation and microchipping in a systematic manner. This would help AMC track the work and complete it faster. The court also suggested involving local people who have experience with stray dogs in the sterilisation programme. If animal lovers raise objections, they should be informed about the Supreme Court's directions on stray dog management. AMC Plans Awareness Drive and Rabies Vaccination - AMC said it plans to visit schools and create awareness among students about not feeding stray dogs on roads. The civic body also plans to identify places in different wards and societies where people regularly feed stray dogs. Dogs at such locations will be vaccinated, microchipped and sterilised.

The court stressed that rabies vaccination should be given priority. It said that once the project is successfully completed in one area of Ahmedabad, it should be expanded to other zones. AMC said the entire process may take years, but no area should be left out if the city wants to reduce the stray dog population.

'Modiji, you are my father's God'

Junagadh gold medalist Vishwa's eyes welled up after seeing the PM up close in Vadodara

Vadodara

Vishwa Hiteshbhai Vadoya of Junagadh got emotional on seeing PM Narendra Modi in Vadodara yesterday (September 8). The video of which went viral on social media. Seeing the Prime Minister closely, Vishwa had tears in her eyes and she said, I come from a small village in Maliya Hati taluka of Junagadh. Modiji, you are my father's God and it was my dream to see you in person which has come true.

National Gold Medalist Vishwa said, "Girls were not allowed to participate in sports in my village. But my father enrolled me in the Khel Mahakumbh, which proved to be important for my career. After that, I participated in state, national and international FIDE rating tournaments and today I have made a career as a coach (chess trainer) of Sports Authority of Gujarat (SAG).

'I got a job through the Khel Mahakumbh'

For 23-year-old Vishwa, who hails from a small village in Junagadh, the moment of seeing the Prime Minister so closely was memorable. Vishwa's father Hitesh Wadoya has been a constant supporter of her in her career. Vishwa said, the Khel Mahakumbh started by Prime Minister Narendra Modi brought an important turning point in my career. Due to this initiative, I got a job and got an opportunity to move forward in the field of sports.

'Seeing him face to face made me feel as happy as if I had actually seen God'

Vishwa told Bhaskar that just like every person has a role model in their life, my daddy's role model is Modi sir and he considers him equal to God. Our entire family is very grateful to him for being able to reach this place today through the Khel Mahakumbh. I cannot express in words what Modi sir has done for our family; seeing him in person made me feel as happy as if I had seen God.

I am an international player and have also won a gold medal at the national level. Whatever I am today in life and whatever success I have achieved, it is because of the 'Khel Mahakumbh' scheme. If the Khel Mahakumbh had not started in Gujarat, then my journey in sports would never have been possible.

My dad's contribution as a coach in this journey is very important,

Vishwa told Bhaskar, "I started my journey from a great platform through 'Khel Mahakumbh' and crossed the village, taluka and district levels and reached the state level. There, I won a silver medal at the state level in the under-11 category. After that, I got a lot of support from the government. I got trained by an international coach, due to which I was able to move forward. I won a gold medal in the national competition held in Andhra Pradesh in 2018-19. My dad's contribution as a coach in this journey has been very important, because at a young age, children do not understand anything about chess, but he gave me the right understanding of how to play, how to make moves and took me forward. Today, chess has become my life and successful career because of my dad.

'When Vishwa was two and a half years old, she learned to arrange her pieces like chess toys. (Video given to Bhaskar by her father)

'When Vishwa was two and a half years old, she learned to arrange her pieces like chess toys. (Video given to Bhaskar by her father)

Support your daughters and send them out to move forward in life.

From a women's perspective, I would like to say that not only housework is important for girls, but they can also go out of the house and participate in sports and make a great career. Right now, I am training more than 40 students, who are also progressing as good players. I especially request the parents of those villages where girls are not allowed to play or move forward, to support your daughters and send them out to move forward in life. Today, many new opportunities are available and just as my parents supported me, you too should encourage your children, the government is also with us.

Vishwa's father Hiteshbhai Vadoya told Bhaskar,

When my daughter cried seeing the Prime Minister, she fulfilled my dream. My baby facilitated me, for that I will thank her. She conveyed my message to Modi Sahib.

Revealed that the stepfather raped the minor before she died

New twist in the case of a natural death that occurred 2 years ago in Surat, DNA report exposes the accused

Surat

A shocking revelation has been made two years after the death of a 13-year-old girl due to illness in June 2024 in the Athwalines police station area of ??Surat. The forensic PM report revealed that the girl was raped before her death. When the police investigated further based on the evidence, it was revealed that the stepfather of the deceased had committed this crime and he was arrested.

What happened 2 years ago?

On June 8, 2024, the brother of the deceased Sagira had informed the Athwalines police of Surat that his sister had suddenly started vomiting and foaming at the mouth. She was shifted to the hospital in 108 and the doctors declared her dead. At that time, an accidental death was registered and a postmortem was done in the new civil hospital and to know the exact cause of death, the viscera and other samples of the deceased were taken and sent to the FSL.

Two years after the rape case was reported in the forensic PM report

, the final 'cause of death' certificate was handed over to the police by the forensic department of Surat's new civil hospital. Even the police officers were shocked to see the report. The report clearly stated that the girl died of lung disease, but at the same time, there were signs of minor injuries on her body and forcible physical abuse and remains of semen were found in her private parts. After it was proved that the heinous act was committed on the helpless minor who was suffering from the disease shortly before her death, the police registered a case of POCSO and rape against an unknown person.

After the rape was proven, the police reached the accused in this way.

During the investigation, the brother of the deceased, who had filed the original complaint, had gone to Nepal and became uncontactable. The Athwalines police visited the girl's school, the shops in Chota Bazaar where she worked, and all the houses the family had moved to since 2024. During the interrogation of the witnesses around, it was revealed that the minor's 45-year-old stepfather used to beat her frequently and there were daily fights due to drug addiction in the family. Based on this suspicion, the police detained the stepfather and took his DNA sample. The police arrested the stepfather after the DNA of the sample found in the girl's private part was a 100 percent match with the sample found in the girl's private part during the FSL examination.

Suspicion was on a family member: DCP

Surat City DCP Nidhi Thakur said, "On June 8, 2024, an accidental death was registered in the Athwalines Police Station area, in which the death of a 13-year-old girl was found due to lung disease in the postmortem. The report of this postmortem came to the Athwalines Police Station two years later and in this report, apart from the cause of death, the presence of semen in the private parts also came to light."
